

BINDER PARK ZOO TRIP

SATURDAY, AUGUST 12, 2017

This day trip provided Docents, Volunteers and family members with an extensive behind the scenes look at the Binder Park Zoo collection of education animals, and information on how they are used in their education and conservation efforts

Other favorites were a behind the scenes visit to the giraffe and zebra barns, and of course, feeding the giraffes in the Wild Africa exhibit.

In the above picture a Docent gets up close to a full size dinosaur replica
